QUESTION 1

Midtown Mall is shopping mall situated in a small mix development that includes a budget hotel and an office building. The surrounding area is mostly residences, offices and a hospital. Two kilometers away, a new large mix development is being built. The new development is nearer to the LRT station whereas Midtown Mall is nearer to a bus terminal.

Among the tenants of the Midtown mall is an upscale grocery store, restaurants and boutiques. It also has a movie theatre and a bowling alley. The management is concerned because looking at the experience of Alamanda in Putrajaya which is larger than Midtown, when IOI City Mall opened, the traffic in Alamanda dropped severely. As a result, Alamanda tenants found it less profitable than before causing many of the tenants to close down. It took some time for Alamanda to recover.

Midtown Mall approached you to come up with a plan to prevent similar situation as Alamanda. Their concern is that if they were to suddenly lose tenants, it would put a severe strain on their cashflow especially if they are not able to get a new tenant quickly.
